INTRO – WHAT IS THE BOOK OF MORMON?  
Highlight Paragraph 1, 8, and 9

“This will really increase the chance of investigators actually reading the Book of Mormon. I’ve had several members ask for this hand out so that they can mark their own copies of the Book of Mormon to give to friends. Most investigators I’ve given it to have actually read because of it. It works! It takes about an hour to go through and mark everything, but if you want your investigators to invest time in their copy of the Book of Mormon, you should invest time in their copy of the Book of Mormon too.”

– Elder Gibson

IMPORTANT NOTES:
- Each chapter or group of verses will have a tab; on that tab write the question of the soul, I would suggest a very fine tip permanent Marker.  
- Use orange, light blue, green, yellow, and red to highlight. Dark colors do not have the same effect.  
- Tabs can be bought at most stores. You do not need to mark all the chapters in this Handout, choose whatever is best for your Investigator; don’t be afraid to think of your own.  
- To save room, stack tabs that are of the same topic, such as “What is the Gospel?”, “When Christ came to America”, “Who is Jesus Christ?” etc.
